

# Southeast Asia Plant Protection Conference

## "Plant Protection Sciences for Future Life"

August 14<sup>th</sup>, 2019 | IPB Internasional Convention Center, Bogor

The Southeast Asia Plant Protection Conference brings together groups of professionals from many different countries with common interests in promoting food security for all nations around the globe. Countries in the Southeast Asia has been considered as world food sources due to their agricultural potential. However, pests and diseases problems under tropical climate become a challenge in order to maintain crop productivity. Advancement of science and technology helps the development of pests and disease control method.

Sharing experiences and discussing plant protection-related sciences and technologies is expected during the conference. In addition, initiation for establishment of scientific community for plant protection among Southeast Asia countries becomes an important goal.
